

# DUMB MISTAKES

Session

Four

“Trying to Find Safety in Numbers”

*And how to avoid them!*

---

## ***Introduction***

“How much is enough?” There is no more subjective question you could ever ask a group. Life is undertaken with the goal of accumulating enough to be secure. The plan says that, once reached, this amount will allow a cessation of “work” and an initiation of “play”. Confidence and peace are tied to a series of digits on a bottom-line, which can be elusive or devoid of security. What do you have that’s worth counting?

## ***Background***

The Story of David \* Chronicles 21:1-19

## ***The Mistake***

What was David’s dumb mistake?

## ***The Result***

What happened as a result of his mistake?

## ***The Principle***

What principle did he violate in his mistake?

## ***The Solution***

How can you avoid making the same mistake?
