

Integrity Over Intrigue

The issue has become so universal that *Time Magazine* could label this the “Year of the Victim”. It seems that everyone is now someone’s victim. Victims of parents, peers, the system, employers . . . the call for victim’s rights is rising everywhere. Who stands up for the victimized? Who will punish the oppressors?

The question is not germane to this era or to American culture alone. Twenty-five centuries ago, in the world empire of the Medes and Persians, a drama centered on a famous victim unfolds. Consider the principles played out in the backdrop of a lion’s lair as the champion of all victims arrives to rescue the man of the hour!
